
Computed average location of all hydrographic observations within an area bounded by 10° of longitude and 5° of latitude. Since average location is not an actual observation point it may fall on land or in water more shallow than the level mapped on this Plate (see text).

Salinity (‰)
Temperature (°C) 34.15 0.10 6.57 13 Oxygen (ml/l)
Number of stations

Ice shelf

Depth less than 4000m

(Bathymetry after Heezen, 1969)
