This chart is based in whole or in part on information from other than official U.S. Government sources, as indicated above. Copyright restrictions of the country of origin continue to exist.

CAUTIONS

1. This chart should be used with caution because of the incomplete nature of the surveys.
2. Differences in latitude and longitude may exist between this and other charts of the area. Therefore, the transfer of positions from one chart to another should be done by bearings and distances from common features.

Magnetic variation curves are for 1983
Figures in parentheses indicate annual change

RULES FOR APPLYING ANNUAL CHANGE TO MAGNETIC VARIATION
The following procedures are to be followed when applying annual change to the magnetic variation. If annual change is of the same direction (West or East) as variation, it is to be added and variation is increasing. If annual change is opposite in direction to variation, it is to be subtracted and the variation is decreasing.
